**Subject:** RE: EPA comments on Amend 12 TPH Investigation

Lynda – You are mistaken. There has been no excavation of soil in the Camp Isbell area as suggested in your email. While clearing snow off the road this spring, ARC's construction contractor built up a small berm of surface soil to divert snowmelt away from the road surface and to prevent erosion. No soil was removed or placed elsewhere. ARC sees no reason to conduct any assessment in this area.

**Subject:** FW: EPA comments on Amend 12 TPH Investigation

Dear Mr. Brown,

EPA has completed its review of Amendment 12 TPH Investigation, and finds that the response is adequate. EPA conditionally approves the document. See attached.

In advance of sampling, or during sampling, please provide for EPA and Waterboard review of the proposed sampling locations.

EPA directs ARC to complete the sampling prior to the end of the 2017 field season.

In addition, EPA requests that ARC assess the area of disturbed soil. As discussed during our in person meeting on May 23, 2015:

EPA was conducting a site visit to the Isabel Camp area on May 19, 2017 when we identified a disturbed area of soil that appears to be a shallow excavation at the former Camp Isbell area. Photo in Attachment 2. Please provide a full assessment, including historical sample concentrations of the soils in this area, and final placement of these disturbed soils within the next thirty (30) days or by June 24, 2017.

If you have any questions, please feel free to contact me at (415) 947-4183 or [Deschambault.lynda@epa.gov](mailto:Deschambault.lynda@epa.gov).

Best Regards,

Lynda Deschambault

**Subject:** EPA comments on Amend 12 TPH Investigation

Dear Mr. Brown,

EPA has completed its review of Atlantic Richfield Company's (ARC) June 1, 2016 Response to EPA Comments on the Draft On-Property Focused Remedial Investigation Work Plan Amendment No. 12: Task Sampling and Analysis Plan for Hydrocarbon Investigation, Leviathan Mine Site, Alpine County, California (TSAP) and the Draft Final TSAP prepared on behalf of the Atlantic Richfield Company (ARC) by AMEC. This work is in partial fulfillment of the requirements of the Statement of Work attached to the Administrative Order for Remedial Investigation and Feasibility Study (Unilateral Administrative Order), Comprehensive Environmental Response, Compensation, and Liability Act Docket No. 2008-18 issued by the U.S. Environmental Protection Agency (U.S. EPA) on June 23, 2008.

EPA has completed its review and provides the attached comments. Within 30 days or by April 30, 2017; EPA directs ARC to provide a sampling locations map within the historical equipment maintenance area (Figure 1), and a table showing the requested TPH thresholds for determining the need for additional investigation. Please also provide a schedule for completing this field sampling and associated reporting by June 30, 2017.

Within 30 days of receipt of EPA comments, ARC shall provide a response that it concurs with EPA comments and will incorporate them as requested. Otherwise, should ARC find that they disagree, do not concur, or will not incorporate EPA comments, then ARC shall take the initiative to set up a meeting to discuss with EPA immediately to ensure that submittals are complete, responsive and satisfactory.

If you have any questions, please feel free to contact me at (415) 947-4183 or [Deschambault.lynda@epa.gov](mailto:Deschambault.lynda@epa.gov).

Best Regards,

Lynda Deschambault
